

General Problems faced in an Educational Institute

- Collection of Fees.
- Maintaining record of outstanding Payments/ Installments.
- Payment Reminder.
- Maintaining details of the Student.
- Handling Enquiries. (Follow up records).
- A lot of paper work required to be done.
- Scheduling Exam.
- Maintaining Certificate Details.
- Re-Exam.

Salient Features

- Built on latest Microsoft .NET technology.
- Paper work reduced to large extent.
- User friendly Interface.
- Schedule Payment.
- Receipt Printing.
- Easy Report Tool to have reports as per your needs.
- Export utility to export your data to Excel Format.
- Security access and rights.
- *Free upgrades to suite changing business needs.

Other Versions

- **Standard Edition**
This is a single PC and multi-user version, can use same PC to Log and Access Data.
- **LAN Edition**
This is client-server edition having multiple clients connect to it via LAN. This is also multi-user edition. (E.g. Accounting, Reception, Boss PC all can be connected to main server) This is ideal for people working on multiple computer which is connected via LAN.
- **Laptop Edition**
This is an extension of multi user edition and one can connect his/her laptop to the server and download data from server, and during traveling one could also use this data (downloaded) as disconnected. Laptop edition is read only, that means you could only view the data and cannot modify it. This is ideal for boss.
- **Multi Location Edition**
This edition is extension to multi user edition and useful for Head Office where one could view the data of multiple branch. This is also a read only version i.e. data can be viewed but not modify.

गुरुपुरा

Software for Institutes

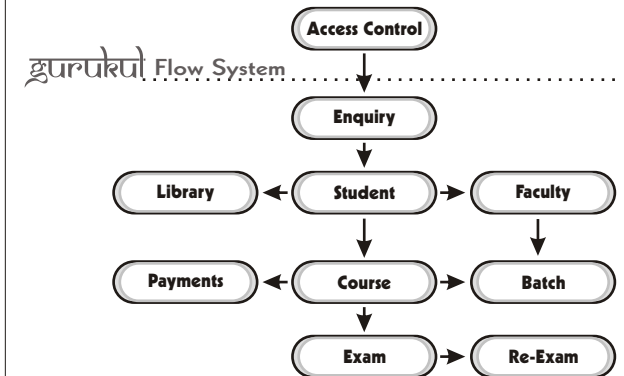

Company Profile

Spectrum Info Solutions was found in 1998, with primary objective to give software solutions for Indian Industries, we are leaders in software solutions for "Air Conditioner" Dealers having client base of more than 90+ happy customers, across regions like Mumbai / Pune / Ahmedbad / Surat / Bangalore & more....

Product Information

गुरुपुरा is a product designed and developed by SPECTRUM INFO SOLUTIONS for a Computer Training Center, Educational Institute or Coaching classes.

It is developed using the latest .NET technology for Windows platform. It has a simple user interface which helps to understand this software quickly and use it more efficiently. Modules are designed as per the general order of an Institute operation which helps to organize, maintain and follow a standard system in your Institute thus, providing a systematic approach to manage your Institute.

Who should use this Software ?

This software is specially designed for an Educational Institute, where generally, it is difficult to manage chunks of data regarding a Students Profile, Institute infrastructure, Faculty Details, Course details, Exam Scheduled, Scheduling Payments and lot more. It is difficult to manage this data as, it involves a lot of paper work. So using a computer to automate this process saves your time along with increasing efficiency of overall system. So using this software not only helps to organize but also automates the data to a certain extent.

Modules of गुरुकुल
